## PROJECTS

### Vetri matrimony (01/2022 - 05/2022)

- Designed a responsive UI to provide an optimal user experience, focusing solely on the React frontend for a matrimonial platform. Link: [Vetri Matrimony](#)

### Bidchemz (06/2022 - 10/2022)

- Engineered a revolutionary B2B platform, employing Next.js, Redux Thunk, MongoDB, and Node.js for seamless functionality and enhanced user experience. Link: [Bidchemz B2B Platform](#)

### Hunch ventures (10/2022 - 11/2022)

- Contributed significantly as a MERN Stack web developer, focusing on React JS and advanced CSS animations. Link: [Hunch Ventures](#)

### Raiden Nft (03/2023 - 10/2023)

- Developed the successful integration of blockchain using Node.js and React.js in my first blockchain project, showcasing adaptability and dedication to staying at the forefront of NFT trends. Link: <https://nft.raiden.in/>

### Raiden Studio Portfolio Site (10/2023 - 03/2024)

- Created Raiden Studios' company portfolio site with React.js, advanced CSS, and a beautiful user experience, optimized for user interactions. Link: [Raiden Studio Portfolio](#)
