ABOUT ME

Dedicated MERN Stack web developer with 2 years of proven experience. Proficient in React JS, Node JS, Express JS, and MongoDB. Successfully delivered high-quality solutions within tight timelines, combining technical expertise with creative problem-solving. Poised to contribute significantly to your company's success.

WORK EXPERIENCE

ITianz IT Solution Company (17/1/2022 - 31/5/2022)

In my first web development role, I played a pivotal role in developing a MERN Stack web application, gaining valuable expertise in MongoDB, Express.js, React, and Node.js. This experience was instrumental in my learning journey within the MERN stack.

Wascorp Digital (1/6/2022 - 30/11/2022)

Led MERN Stack development for dynamic web applications and e-commerce platforms. Managed full project lifecycle, ensuring optimal performance and user experience with Next.js.

Raiden Studios (05-03-2023 - 05-03-2024)

Led MERN Stack projects, collaborating with web3 developers to deliver two NFT marketplace projects. Ensured smooth integration of front-end and back-end components for enhanced efficiency, optimizing user experience and performance. Employed agile methodologies to adapt quickly to project needs and drive successful outcomes.

PROJECTS

Shop Easy: Started my web development journey by creating a dynamic e-commerce platform—a learning project where I utilized Redux for efficient state management and seamlessly integrated secure payment gateways.
Website: <https://shopeasy-dcec.onrender.com>

Bidchemz: Engineered a revolutionary B2B platform, employing Next.js, Redux Thunk, MongoDB, and Node.js for seamless functionality and enhanced user experience.
Website: bidchemz.com

Irish Whiskey Collectibles NFT Marketplace: Developed the successful integration of blockchain using Node.js and React.js in my first blockchain project, showcasing adaptability and dedication to staying at the forefront of NFT trends.

Hunch Ventures: Contributed significantly as a MERN Stack web developer, focusing on React JS and advanced CSS animations.
Website: hunchventures.com

Chronicle Verse NFT Marketplace: Contributed to the success of this pioneering NFT marketplace using React.js and Node.js.
Website: ec2-65-2-141-244.ap-south-1.compute.amazonaws.com

Vetri Matrimony: Designed a responsive UI to provide an optimal user experience, focusing solely on the React frontend for a matrimonial platform.
